96th Edition

FALL, 1906.

TO THE TRADE. We take pleasure in presenting the ninety-sixth edition of our Trade List, covering the stock we have to offer for shipment, Fall, 1906. The stock offered herein has been carefully grown, and is all young and thrifty, and will be properly dug and graded to the highest standard. We also desire to call special attention to the extent and completeness of our stock, both in Fruit and Ornamental departments.

With our large storage cellars and packing houses, and system of water-works, distributing water to all parts of our packing grounds, we feel that our facilities for the careful and proper handling of nursery stock are very complete.

Our nurseries have been properly inspected by the State Entomologist, as will be seen by his certificate on page 22 of this catalogue.

Our shipping facilities are unexcelled. Bloomington being an important railroad center, we are able to forward promptly to all sections. With the Illinois Central R. R., Chicago & Alton R. R., Lake Erie & Western R. R., and the C. C. C. & St. L. R. R. (Big Four), and their branches, we have direct communication with Chicago, St. Louis, Cincinnati, Kansas City, Indianapolis, Dubuque, Cairo and Lafayette by daily freight trains without transfer. On account of our unusual facilities we are also enabled to obtain very low freight rates to all points.

We exercise the greatest care to have all articles true to name.

THE PHOENIX NURSERY COMPANY.
